Instructions for enrolling optional courses for the following summer semester

1. Enter the Registration Section

To access the registration section:

Student's portal -> All Study Courses (second picture of paws)

2. Display of study plans

Click Display study plan button for summer semester 2019/2020.

3. Choice of optional courses

After clicking on the Display study plan button, you will see a list of courses from which you can choose. Then select the apporpriate number of courses according to your study plan and then confirm your choice by clicking the Add selected courses button.

The illustration shows an example where students choose one subject from two different groups of optional courses.
